

## **HEALTH, SAFETY AND ENVIRONMENTAL PROTECTION POLICY**

The health and safety of employees, contractors, visitors and the public, as well as the protection of the environment, is of the utmost importance to Crescent Point Energy Corporation (“Crescent Point” or the “Company”). The Company endeavors to conduct its operations in a manner that will minimize both adverse environmental effects and consequences of emergency situations by:

- Complying with all applicable government regulations and standards;
- Operating in a manner consistent with industry codes, practices and guidelines;
- Ensuring prompt and effective response and repair to emergency situations and environmental incidents;
- Providing training to ensure compliance with Crescent Point’s Operations Management System (OMS);
- Careful planning, good judgment and prudent monitoring of the Company’s activities;
- Communicating openly with all stakeholders regarding our activities; and
- Amending Crescent Point’s policies and procedures, as may be required from time to time.

Health, safety and environmental protection at Crescent Point is everyone’s responsibility. All employees and contractors are accountable in creating and maintaining a safe workplace, where health and environmental performance has equal value and priority. This is best achieved through the careful planning, support and active participation of everyone involved in Crescent Point activities.
